Spanish River Park takes its name from the shallow fresh water stream, which once flowed along what is now the western edge of the park.

Since its channelization by the core of engineers, the river has become known to boaters as part of the inter-coastal waterway. Early maps show the river as "Boca Raton's Lagoon", But late settlers and developers apparently borrowed a page from history and renamed it the old Spanish river , Remnants of the meandering stream bed are still visible in the park.

**HOURS OF OPERATION:** The Park opens no later than 8:00 A.M. and closes at sundown, seven days per week. Sundown is usually established by the U.S. Weather Bureau and is normally published in the weather section of the local newspaper.

**We are in pavilion #9 picnic shelter.**
